USWCC: 2016 Federal Candidate Questionnaire - Gary L. Koniz

**WOMEN'S ECONOMIC PRIORITIES:
Fundamental budget and policy priorities that support women's economic
opportunities, security and family well-being.**

Dear Candidate:

The purpose of the U.S. Women's Chamber of Commerce| 2016 Federal Candidate Questionnaire is to understand your views and determine our candidate ratings and endorsements. Responses will be published at one or more of our association web-sites including uswcc.org and IVoteForWomen.org.

Women are an important force in America who have, for too long, been undervalued and underrepresented in political leadership and policy making. Our multi-decade march into the American workforce, business ownership, household leadership and consumer spending has elevated women into true leadership of the American economy. And now, we are also The Majority Vote.

However, even with our sizable contributions to and influence on the American economy, we recognize there is much left to do to support women's economic opportunities, independence, security, values and family well-being.

The new role for women's economic and political leadership has begun as we focus or influence, detail specifically our contributions to America, our views and needs and strongly assert our influence through aligning our votes with those who support us. We call upon America's political leaders to answer our call.

We are students, workers, mothers, business owners, retirees, consumers and The Majority Vote. We are the New American Leadership.

Respectfully,

Margot Dorfman, CEO
U.S. Women's Chamber of Commerce®
700 12th Street, NW, Suite 700
Washington, DC 20005
888-418-7922, uswcc.org

We will notify you via email when we receive your completed questionnaire. If you have questions, please contact the U.S. Women's Chamber of Commerce at 888-418-7922. (A PDF of this survey is available online at IVoteForWomen.org/survey.) Or, often (during normal business hours) our website has live support available. Just go to uswcc.org and look for the live chat assistance at the bottom right of the page. Please complete and

return the candidate questionnaire by August 31, 2016. [We will accept questionnaires after this date as well.]

CANDIDATE QUESTIONNAIRE

Women are an important economic force in America who, for too long, have been undervalued. For more than two decades, women have lead the growth in America's Gross Domestic Product, driven the creation of new businesses and jobs, moved into leadership roles providing financially for our children and families — and now, we also hold The Majority Vote.

But, even with our sizable contributions to the American economy, there is much left to do to support our economic opportunities, independence, security, values and family well-being.

The U.S. Women's Chamber of Commerce released a report on the [Women's Economic Priorities](#) which highlights the contributions we have made to America, outlines our current economic condition and states clearly the types of federal budget and policies that are vital to support Women's Economic Priorities. In 2016, the USWCC released a detailed statistical report and "[Wake-Up Call](#)" highlighting the alarming disparities between the number of women business owners in America and their business revenues.

As a candidate running for federal office, if elected (or re-elected) – your activities will directly impact Women's Economic Priorities. To understand your positions and views, the U.S. Women's Chamber of Commerce asks you to complete the following questionnaire.

1. Fair Pay

The Paycheck Fairness Act takes meaningful steps to create incentives for employers to follow the law, empower women to negotiate for equal pay, and strengthen federal outreach and enforcement efforts. The bill would also deter discrimination by strengthening penalties for equal pay violations and by prohibiting retaliation against workers who inquire about employers' wage practices or disclose their own wages.

Do you support or oppose the Paycheck Fairness Act (S. 862 / H.R. 1619)?

Support

Oppose

>If elected, what specific actions will you take regarding fair pay programs?

Dear Linda Gay:

Thank you for the opportunity of endorsement in Campaign Advertising with you. I am still trying to raise the capital for it. But the status quo of big money doesn't want my Platform for the obvious reason that they are exploiting and taking advantage over the Working People I Represent who don't have the money to donate. It's a tough sell.

The American Dream has been much different than expected: to succeed by working hard, to live an honest life, to strive to do the right thing, to help others whenever we can, and to live a principled life. But the middle class that is/was the heart and soul of America is all but dead (and especially pertaining for our valiant U.S. Servicemen and Women returning from their Tours of Duty Abroad and suffering from the Trauma and Remorse of War to face lives of rejection, alienation, poverty, and despair.) I need all the Grass Roots word-of-mouth Support I can get in networking communications to Carry the Election in order to be able to legislate effectively for a mandatory Cost-Of-Living Minimum Wage Working Class Defense and to provide much needed Public Service Employment to the great numbers of Americans being left Without Resources in Necessities of Survival. The inertia in status quo of the Upper Class Mind-Set of Let The People Starve Capitalism is not going to do the job. My Campaign is not about rote Party Block Voting but about having a Viable Platform of Substance to Vote On.

I am on the ballot for the U.S. House of Representatives in Florida's 4th Congressional District in the November 8, 2016 General Election running as an Aggressive Independent Bi-Partisan Conservative in a Campaign to confront the obvious Existing Errors in our current Government; particularly as they are occurring to our Economy; and especially to Represent, Defend, and Protect the Working Class Population in the War of The Have's versus The Have Not's from the current trend of Class Discriminating Exploitation, for us not to remain politically passive about regarding our Nation's Politicians, but to bring about a caring regard for the benefit of all of the people here in keeping with the Moral and Ethical Integrity of our Nation's Governing Ideology.

Our Motto Is: "A Democracy That Works For All The People." This active brand of Socialized-Capitalism will call for: a Prevailing Middle Class Cost-Of-Living Minimum Wage Legislation with an Anti-Trust Fair Price Cost-of-Living Monitoring Agreement, an Affordable Graduated FICA Payroll Deducted National Medicare Health and Dental Care Plan, and for Full Faith Supplemental Currency Issue; to meet all necessary Government Payrolls, provide for; National Infrastructure, Public Employment, The Environment, Emergency Disaster Relief; and All Other Urgent Economic Concerns of State; and so to Eliminate Budget Deficit in Taxation Shortfall by Issuing Currency from the Treasury instead of borrowing the money from Banks and Foreign Governments. This plan will end the Lending Collaborations that are tied to the Annual Increase Congressional Approval of the National Debt Ceiling. The plan will also ensure that the Stock Market is not further subjected to Panic Manipulation by Placing a Cap on how far a stock can fall, 3% of its value, in one Trading Day, and by ending Short-Selling Casino Style Gambling Speculation. That will in all (and along with firmly Enforcing a Fair Balance of Foreign Trade,) produce the Consumer Purchasing Power We Need To Secure our Nation's Domestic Economic Vitality, Growth, and Stability. Let us begin to Govern by Forcible and Determined Consensus.

Wishing you every success,

Gary L. Koniz

Journalist Correspondent

"That the Earth with All Its Life Abounding Exists in an Eternity of Infinite Time and Space is a miracle beyond comprehension to behold. Let us therefore govern ourselves accordingly to create a Model Society upon the Earth for all to emulate. Sophisticated Reasoning Is In Order: In The End You Will Say, 'We Did It Ourselves.' We Are The Only Ones Who Can Make Those Determinations Of Choice."

RE: 100% .GOV Transparency = 100% .GOV Accountability

Social-Capitalism Is Our Global Political Philosophy

"Our Goal Is To Form A Government That Works For All The People"

2. Minimum Wage

The Women's Chamber recognizes that raising the minimum wage is good for women, businesses and America. Two-thirds of minimum wage workers are women. For women-owned small businesses, raising the minimum wage levels the playing field for fair competition. Minimum wage increases raise productivity and commitment of employees, reduce training costs and turnover, decrease absenteeism and increase morale. Raising the minimum wage increases consumer spending and improves the quality of products/services, customer satisfaction and company reputation.

Do you support legislation to raise the minimum wage to \$12 per hour or more?

Support

Oppose

>If elected, what specific actions will you take regarding minimum wage?

3. Family-Friendly Workplace

The United States is the only advanced country in the world that does not guarantee paid sick leave to our workers. The U.S. Women's Chamber of Commerce members and women business owners seek to offer paid leave because they do not want their employees to have to choose between a paycheck and taking care of a sick child or parent or even taking care of themselves if they are sick. USWCC is supporting the Healthy Families Act which will require employers with over 15 employees to permit each employee to earn at least one hour of paid sick time for every 30 hours worked.

Do you support or oppose the Healthy Families Act (S. 497 / H.R. 932)?

Support

Oppose

>If elected, what specific actions will you take regarding family-friendly workplaces?

4. Small Business | Access to Capital

Despite the vast economic importance of women-owned businesses, in 2012 only 9.3 Small Business Administration 7(a) loans were issued per 10,000 women-owned businesses compared with 24.7 for male-owned

small businesses. Moreover, women account for only 16% of conventional small business loans and these loans account for only 4.4% of the total dollar value of loans from all sources. Just \$1 of every \$23 in conventional small business loans goes to a women-owned business. In addition, the U.S. Women's Chamber of Commerce reported in its Wake-Up Call study that women own nearly 36% of all firms in America. Yet they account for only 4.23% of the revenues and only 10% of them have employees.

>Will you support reform legislation that will lead to greater access to capital for women-owned businesses including:

A. Raising caps on credit union member business lending

- Support
Oppose

B. Advancing SBA-backed lending through credit unions and community banks

- Support
Oppose

C. Enforcing the Community Reinvestment Act to ensure large banks serve small businesses in underserved communities including women-owned, low-income and minority communities

- Support
Oppose

D. Mandating that SBA engage in direct lending (with loans to be sold on the secondary market) in any underserved community where small businesses are not securing appropriate levels of access to capital

- Support
Oppose

E. Requiring Small Business Investment Company (SBIC) lenders to report investments in women-owned firms

- Support
Oppose

F. Expanding federal funding of Community Development Financial Institutions (CDFIs)

- Support
Oppose

>If elected, what specific actions will you take regarding access to capital for small and women-owned businesses?

5. Small Business | Access to Federal Contracts

The Women's Chamber of Commerce has fought for over a decade to ensure women-owned firms have equal access to federal contracts. Women own 36% of all businesses, and yet, while the federal government is claiming it has met the 20-year goal of 5% awarded contracts to women-owned companies, they have not taken into account the programs flaws where more than 40% of Women-Owned Small Business and Economically Disadvantaged Women-Owned Small Business awarded contracts went to ineligible firms and Inspector General reports from multiple federal agencies detailing widespread fraud. These shortcomings translate into women business owners losing over \$100 billion in federal contracting opportunities during this time span.

>Will you support small business federal contracting reform legislation that will:

A. Provide greater transparency and detailed data within annual SBA small business contracting reports

Support

Oppose

B. Eliminate unwarranted exclusions to small business contracting goals

Support

Oppose

C. End of "grandfathering" small businesses bought by large companies which causes award reporting to inflate federal small business award data

Support

Oppose

D. Improve verifications to assure contract awards counted as awards to women-owned firms are awards that went to legitimately women-owned firms

Support

Oppose

E. Assure more Procurement Center Representatives are hired and trained to support access to contracts for small firms?

Support

Oppose

>If elected, what specific actions will you take regarding increasing access to federal contracts for

women-owned small business suppliers?**6. Promote Competition | Level Playing Field**

Over the last two (plus) decades, revenues generated by America's small businesses have declined while profits from large corporations have grown disproportionately. Large corporations have gained significant control over the political process, capital, markets and competition turning America into a place of less business opportunity and competition instead of more.

>Will you support a strong agenda and federal government leadership that:

- Stops undue, anti-competitive corporate concentration
- Ensures large corporations pay their fair share of taxes
- Makes antitrust policies and enforcement stronger
- Ends abusive behavior of dominant companies
- Ends abusive, discriminatory and unfair methods of competition
- Ends corporate supplier practices that force small, women and minority-owned firms to pay for and secure large corporate controlled supplier designations prior to securing competitive market opportunities

(check one)

- Support
Oppose

>If elected, what specific actions will you take to promote competition, level the playing field and support the growth of small, women-owned and minority-owned firms?**7. Invest in Small Business Creation and Growth**

Much is written about the contributions of small businesses to our economy: job creation, asset building and prosperity, innovation and flexibility, community economic empowerment, flexibility for owners and independence.

>Will you support a strong agenda and federal government leadership that:

- Invests in small business creation and growth
- Restores and protects a strong and vibrant Small Business Administration
- Invests and develops regional incubators and entrepreneurial development including rural areas where resources are lacking
- Expands government purchasing more broadly outside of the beltway to assure citizen taxpayer investments are not funneled back to DC-MD-VA firms with such density

(check one)

- Support
Oppose

>If elected, what specific actions will you take to invest in and support small business creation and growth?

8. Invest in U.S. Infrastructure

America relies upon our infrastructure for job / business creation, safety and prosperity. But, our infrastructure is in a significant and ongoing decline. The U.S. needs a serious and significant investment in rebuilding our infrastructure. This effort will also create jobs and businesses and increase American competitiveness around the globe.

>Will you support a strong agenda and federal government leadership that makes significant investments in U.S. infrastructure?

- Support
Oppose

>If elected, what specific actions will you take to invest in U.S. Infrastructure?
